S. af
Race
 exploitation of black labor is part of aims of south african govt and those foreign govts who are in accord with these aims, as apartheid laws enable capitalists to reap huge profits; one of reasons why usa is anxious to give support to racists is that apartheid regime terrorizes and perpetrates harassment against newly independent african states. ussr has no relations with south africa and it wishes other countries to do same, because lib movt in south africa can only succeed if there is coop and unity against oppressors.
